

Terms of participation

General terms

At the DISCOVERY DAYS known and unknown speakers, or those who want to become one, from Switzerland or other countries get the possibility to participate.

At the competition the best live reports in the categories BEST PRESENTATION, BEST PHOTOGRAPHY and BEST STORY will be evaluated and awarded by a jury.

Each participant can apply with ONE live report for the DISCOVERY DAYS. The total duration shall not be more than 30 minutes. The presentation must be performed live and in German or as an exception in English. All speakers present in front of a live audience on location, but their talk may also be presented as a live stream on the internet. The organizers may use digital material for future advertising (e.g. future trailers), but no presentation will remain available on the internet after the event (no on-demand).

Out of all received proposals, 12 to 18 presentations will be chosen for the participation at the competition. The pre-selection of the editorial office and the judgement of the jury at the competition are incontestable, the legal recourse is excluded.

Through the participation at the competition the participant accepts the terms and allows the usage and the imprint of the 15 submitted photos (see terms of submission) including the right of usage (press releases, program, merchandising, etc).

The direction of the competition is subject to the organisation committee of the DISCOVERY DAYS. The organisers have the right to decline without reasoning.
